

This is the manage Plans section of the super admin, I will note what is not working and what changes need to be made.

Delete Search section - not needed. Delete the Status and toggle - not needed

When selecting the action / edit button it goes to the next page which has several issues

Plan Name	Price	Status	Created at	Action
Host Event Fee	100.00	<input checked="" type="checkbox"/>	10/07/2024	

This back button does not return the user to the prior page as it does not do anything. Should return to prior page

When the user enters in a new Price in the price field, it throws off an incorrect error message. In the above example, I tried changing the \$100 to 29.99 and the error on the next page is what came up

RAF MEMBERSHIP

Price *
9.00

Description *
Determine how your skills compare to your peers on the RAF Leaderboards . Download the weekly challenge target file directly from inside the app and print your copies locally . Grow your brand and promote yourself through the use of your Bio and video uploads.

Update

Same issue here where it does not allow for the price to be updated.

Delete the Validity section and the status section. I intend to keep this only as a monthly subscription that is always active

[Manage RAF Rules](#)

This seems to be ok - the only issue is that it gave me a time out error when I was setting up a test rule. This process could take a bit of time, so please check and make sure that there is a min of 30 min allocated before a time out error occurs. This was during my initial attempt at Add Rule

This is both a super admin and a user flow issue. This Manage RAF Rules super admin function is intended to be inserted as shown here in the rules page under Official Rules. I provided an example of what is coming up and I have no idea where that is being pulled from - but it is incorrect.

CLOSE

Manage Target Gallery

Just needs to be able to accept Pdf file formats for the uploaded image. My designed targets are crystal clear at full size when downloaded as a Pdf but of very poor quality at a Png or other.

Add Target

Start date 12/01/2024

End date 12/07/2024

Re-format the target image box size to the appropriate size of 2W x 3H and make it approximately the size shown above. Include the banner ad (if any from sponsor)

Align the dates to be left justified and aligned one beneath the other.

Round 1

Yards	3	Re-load Required (y/n)	No
Shots	10	Target Zone	6
		Hand (s/w)	S
Shots	17	Target Zone	n/a
		Hand (s/w)	W

Round 2

Yards	99	Re-load Required (y/n)	Yes
Shots	75	Target Zone	4
		Hand (s/w)	W
Shots	38	Target Zone	n/a
		Hand (s/w)	S

The current layout and information flow is just not good - sorry but not sure how else to put it. The sponsored by will come from the Manage Sponsors file (if a sponsored has paid to sponsor that weeks event). The Select Target from File will come from the Manage Targets library section and it could be a drop down with number from 1-(how many targets are in the file). I do not expect this list to be extensive - but it would not matter if it is. The target selected should be represented in the proportional box as shown. The additional Rules box you had is not necessary as the event rules are pulled from the Manage RAF Rules entry, so it can be eliminated all together. Please follow this layout and information to complete this section . As we have designed for the file in the Manage Target Gallery to be a Pdf, it is important that this Pdf format be carried through to the user so that it can be of good quality for download

Submit

To fix this error message - as it is likely that some rounds will have only one row to do to complete the round. in each of the "Shots" boxes, provide a drop down with the options of 3,6, or N/A. In the Hand box, include N/A as an option. This will fix the issue.

Round 1

Yards (Enter distance from target)		Re-load Required (y/n)	
<input type="text" value="10"/>		<input type="text" value="Yes"/>	
Shots	Target Zone	Hand (s/w)	
<input type="text" value="6"/>	<input type="text" value="6"/>	<input type="text" value="S"/>	
Shots	Target Zone	Hand (s/w)	
<input type="text" value="Shots"/>	<input type="text" value="N/A"/>	<input type="text" value="Select any"/>	

This field is required. This field is required.

After a target zone is selected, it needs to be dimmed and unavailable for selection for additional rounds.

same way we did this in the user host sign up flow.

Round 1

Not sure how we went from what was provided to what was developed. Please use the columns that were provided in the Figma file. These are Company Name, Address, City, state, Contact First Name, Contact Last Name, Contact Email, Contact Phone Number, Ext. The only other thing that would be nice would be to have a Note box in the actions section to keep track of communications. No Problem to omit if this is extra work. Only the fields I indicated should be included and all others deleted. You can include Country.
